Subject: JH Baxter - Arlington Facility - Work Plan Extension Request

Jan:

On behalf of J.H. Baxter & Co (Baxter), we would like to request an approximately one-week extension on the submittal date for the work plan for a pilot study of chemical oxidation, as requested in your letter to RueAnn Thomas dated May 17, 2013. The purpose of the extension is to further develop certain aspects of the work plan regarding facility-specific data needs to support the pilot study.

The original submittal date for the work plan was June 20, 2013, based on 30-days from the day Baxter received the letter (i.e., May 21, 2013). We are requesting an extension until Friday, June 28, 2013 (8 days). If this meets with your approval, please send an email at your earliest convenience.

Thank you,

Steve Barnett
